NEW MULTITECH INTERNATIONAL

QUALITY PRODUCT, RELIABLE SERVICE

INTRODUCTION

We have the pleasure to introduce our company "**NEW MULTITECH INTERNATIONAL**" as a reliable importer and fast-growing supplier in Bangladesh exclusively dealing in supply of Valves, Joints, Pressure Controller, Pipe, Fittings and Various Industrial Equipment. We provide world class products ensuring quality, dimensional accuracy and durability for various industrial projects. We also deal in local made very good quality products for industrial solution in Bangladesh as per demand of the users. We are committed to total customer satisfaction by identifying their specific needs ensuring supply of quality products in time and providing dependable after sales services. We have skilled workforce, committed Manager & motivated employee to meet the customer specified requirements. We encourage transparency in everything we do and strictly adhere to the highest ethical standards. We are accountable for our own actions and responsible for sustaining corporate reputation.

MESSAGE FROM THE PROPRIETOR

I am very much pleased that to let you know about our organization. We are providing here some useful information about our organization so that you can get a clear idea about our products, performance, and services.

We are prominent, trusted, and fast-growing importer and supplier dealing in the supply of Valves, Pipes, Tubes, Fittings, Joints, Accessories, and various industrial equipment in Bangladesh. Our organization is situated in Hazi Osman Goni Road, the business heart of Dhaka which is easily identifiable and anybody can reach there easily.

We provide world-class products ensuring quality at the most competitive prices with the best services. Our customers can have the assurance of timely delivery. Our after-sales services have prompted us a strong up-hold in the market. We can fulfill the needs of the customers by understanding their choices depending upon their budgets. We supply our products mainly to different industries like Power plants, Garments, Textiles, Chemical Industries, pharmaceuticals, and various other industries over Bangladesh. We source our products from different countries like Turkey, Portugal China, Malaysia, Taiwan, India, Italy, etc. We also procure from local sources as per the demand of our valued customers.

We have an efficient team having expertise knowledge that works with dedication, sincerity, and honesty and are bound by a common vision to offer professional service to our valued customers and parties. With their immense support and hard work, we have been able to cater to the distinct needs of our customers.

I hope you will find our website informative, useful, and interesting. Thank you for giving us time to visit our website.
